

3200 SERIES

Folding Door

Open wider. Live brighter.

TRANSFORM THE WAY A SPACE FEELS.

Designed for expansive residential openings, the 3200 Series brings interiors, terraces and views together in one fluid architectural gesture. Folding panels move away from the opening to create a wider connection for everyday living and entertaining.

Let the landscape become part of the room.

A wide opening changes more than the view. It brings daylight deeper into the interior, encourages natural movement between spaces and creates a stronger relationship with the surroundings.

Made for the way life moves.

From morning light to open-air entertaining, one seamless connection changes how each space is experienced.

Make your next opening remarkable.

From configuration and glass selection to professional installation, Morrison Windows can help coordinate the details for a complete project solution.
