R370

THE SLIDING FRENCH DOOR

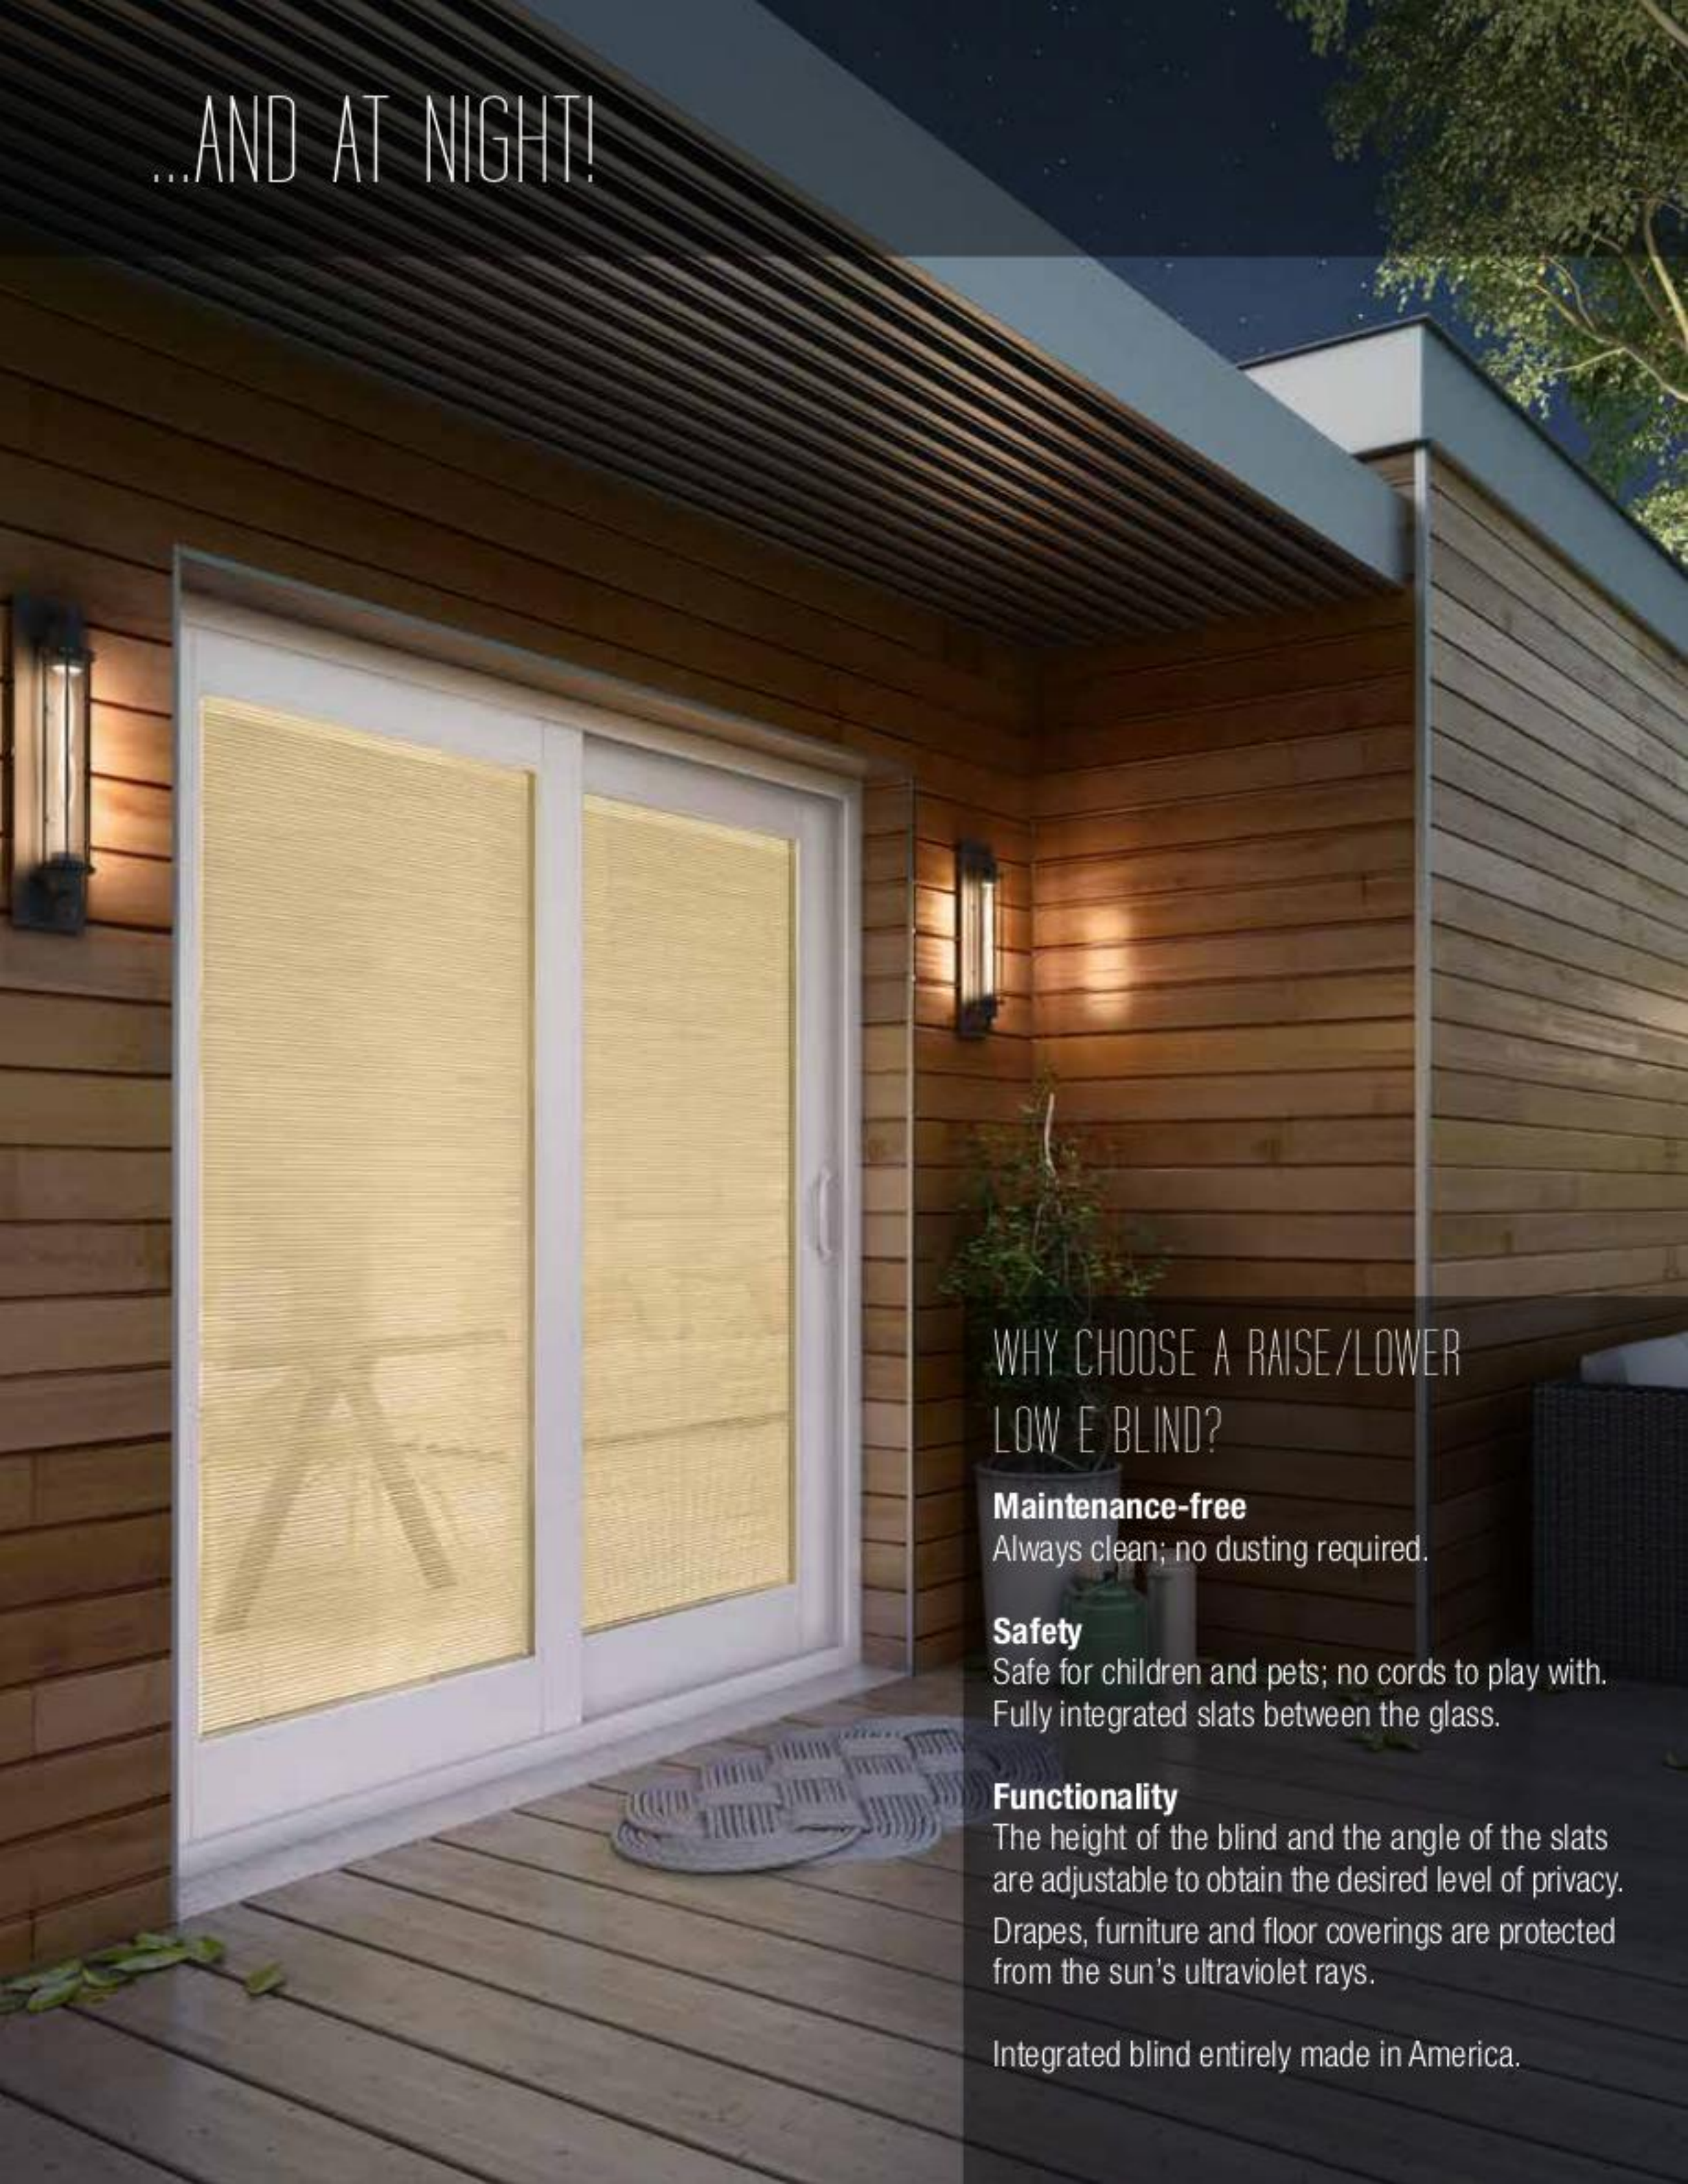

The **R370** door has the look of a french door without hinges.
You can therefore arrange the interior and exterior of your home without any obstructions.

MAXIMUM PRIVACY DURING THE DAY...

*With Signature brushed chrome handle

A photograph of a modern house at night. The house has horizontal wooden siding. A large glass door with a white frame is the central focus. The door is covered with a low-e blind that has a fine, grid-like texture. The interior lights are on, and the light from the door is visible through the blind. The door is set into a recessed area of the house. To the left of the door, there is a small, rectangular, illuminated outdoor light fixture mounted on the wall. To the right of the door, there is another similar light fixture. The floor in front of the door is made of wooden planks. A small, round, woven rug is placed on the floor in front of the door. The sky is dark, and there are some trees visible in the background.

...AND AT NIGHT!

WHY CHOOSE A RAISE/LOWER LOW E BLIND?

Maintenance-free

Always clean; no dusting required.

Safety

Safe for children and pets; no cords to play with.
Fully integrated slats between the glass.

Functionality

The height of the blind and the angle of the slats
are adjustable to obtain the desired level of privacy.
Drapes, furniture and floor coverings are protected
from the sun's ultraviolet rays.

Integrated blind entirely made in America.

*3 panels with pewter 3 x 6 contour grids
